

Welding Alloys Group Policy

Health & Safety Policy Statement

The Welding Alloys Executive Team accept their responsibilities to provide a working environment that is safe and without risk to health, and view it as an integral part of all business activity. The company will provide working conditions which comply with the relevant local statutory requirements and officially approved codes of practice that are designed to ensure good standards of health and safety.

The Executive Team will take all reasonable practicable steps to meet this responsibility by paying particular attention to:

1. The provision and maintenance of equipment and systems of work that are safe and without risk to employees and any other person likely to be affected by the activities of the Company.
2. The provision of a safe place of work and environment which has safe access and egress and does not present a risk to any person.
3. Proper arrangement for the use, handling, storage and transport of articles and substances.
4. The provision of information, instruction, training and supervision to assist all employees in working safely, contributing positively to their own and other employees' safety.
5. The provision of adequate welfare arrangements.

This policy can only be successful with the active co-operation of all employees. The Executive Team therefore believe that it is the responsibility of all employees to perform their assigned duties safely by following established safe working procedures, using proper safety equipment and by reporting or correcting unsafe acts or conditions.

Signed: 

Dominic Stekly CEO
